

## FEATURE

- Attractive compact design
- Low installation, running and maintenance cost
- Remote control for easy operation
- Different settings and running features
- Handles to easily carry the unit
- Wheeled units with integrated water tank for multiple applications
- Long uninterrupted running time without need of water refilling
- Low noise
- Ionizer
- Centrifugal fan
- Automatic water supply
- Easy to move on wheels
- Flaps swing automatically
- No installation required
- Eco friendly: no compressor, no gas, very low consumption
- It renovates and cleans the air from fumes, dust and odours
- It can perfume the air

Model	Power	Air volume	Cooling area	Tank capacity	Tank level control	Meas	Gross Weight
